

[Blogger's comment:]

The way CCP treats its virus victims is somewhat puzzling.

One is that CCP called its virus victims “martyrs” as mentioned in this New York Times report;

Secondly, on April 5th, CCP unprecedentedly held nationwide mourning service to commemorate its virus “martyrs”. Since it came to power, the CCP has caused about 80 million unnatural death and never mourned anybody except its own high ranking leaders. Why this time?

Not until this leaked document surfaced, did I realized why the CCP did so, for this time is different, the table has turned. This CCP's local Covid-19 death toll list clearly showed that over 80% of the dead were non-elderly CCP members! Its troops, its foot soldiers got killed in huge numbers. Of course, to the CCP, they are martyrs. Of course, the CCP has to do something to beef up the loyalty of its troops, its foot soldiers - its members. Forget about the respect of the dead, the CCP are atheists and they only care about how to control the people who are alive, and how to stay in power.
